five empty trains of 30 to 40 SS type flatcars each have been standing in Jüterbog for about ten days. Two of the trains came from the Halle railroad district, three came from Berlin. \*

25X1

25X1

Comment. The trains are probably tank shuttle trains which were sidetracked in Jüterbog after taking Soviet tank units to the Werder-Markendorf maneuver area. The four-axle SS type car has a load capacity of at least 30 tons and a corresponding load surface. These flatcars are suitable for shipment of medium and heavy tanks.
